

200-plate trolley with safety grids to stop plates falling.

STURDY

The trolleys together with the separation grids are made of stainless steel, meaning they are strong and corrosion-resistant, and consequently very durable.

They are built on an automatic welding bench. This production process ensures even welds.

The trolleys are fitted with 4 stainless steel swivel wheels with polyamide cover and stainless steel axle and ball. The ball bearing guarantees the rolling quality and optimum resistance with time. Two wheels are braked so that the trolleys can be immobilised. The wheel treads and protective bumpers are of the non-marking type.

ERGONOMICS

The trolleys are fitted with either safety grids to stop plates falling, or simple separations with a front grid.

300-plate trolley with separations and removable front grid.

The front grid is easy to remove and hooks onto the rear of the trolley so that it is easy to handle the plates.

The sloped base and the height of the separation grids mean that crockery can be transported in perfect safety.

The trolleys are designed for plates of up to 290 mm in diameter and cafeteria trays measuring 460 x 360 mm (600 x 400 mm for the 400-plate trolley).

Welded trolleys with raised platform for more ergonomic use : height 460 mm on 200-plate trolleys and 485 mm on 400-plate trolleys.

They are also suitable for storing small crockery items such as ramequins, bowls, small dishes, saucers.

Six trolley models are also available in demountable versions.

The trolleys (200 and 300 plates) can be delivered in flat packs to keep transport and storage costs down.

400-plate trolley with separations and removable front grid.

OPTIONAL

- Protective polyamide cover.
- Removable cutlery dispenser, capacity: 5 GN 1/3 containers.
- Additional separation grids.

cutlery dispenser ref. 800 571 (containers extra)

PLATE TROLLEYS

THE TOURNUS ASSET

- Openwork, sloped base to facilitate draining of cleaning water.
- Adjustable safety separation grids to fit the type of dishes used.
- On the trolleys with fold-away grids, the front grid can be hooked on to the rear for easy access when loading and unloading.

Stainless steel construction. Arched handles in tube 25 × 25 mm with adjustable separations. 4 swivel wheels Ø 125 mm with polyamide cover including 2 brakes. Annular bumpers. Plates up to Ø 290 mm maximum.

Welded trolleys

Description	Overall Dim. l × W × h (mm)	With secure stacking partitions	With separation grills + removable front grill
		Ref.	Ref.
Trolley 200 plates	1065 × 450 × 810	<u>800 541</u>	<u>800 542</u>
Trolley 300 plates	1065 × 450 × 1000	<u>800 546</u>	<u>800 547</u>
Trolley 400 plates	1065 × 740 × 810	<u>800 551</u>	<u>800 552</u>

Plate trolleys - delivered as flat pack item
