

WALL-MOUNTED STAINLESS STEEL

Stainless steel construction. Detachable tray of thickness 1.2 mm and rear panel of height 50 mm. Useful width 360 mm. Welded corners, front edging strip and curved splash back similar to those of Tournus stainless steel tables and furniture. Distributed load: 150 kg (according to type of wall). Independent console, wall-mounting by screws. Rear splash back recessed by 40 mm for clearance for pipes. Possibility of positioning shelves on top of one another to obtain several levels or positioning them side by side to extend the length. NF Food Hygiene certification.

The Tournus assets

- NF food hygiene certification, attesting compliance with the standard NF031.
- Front edge like that of furniture and sinks (**enables matching between the adjacent units**).
- Detachable trays **to facilitate cleaning**.
- Welded Angles **in order to eliminate any trapping of dirt and strengthen the rigidity of construction**.
- Rear panel set back by 40 mm, **allowing the passage of the vertical pipes and cleaning of the wall**.
